

BUZZ LIGHTYEAR'S DEEP SPACE, DEEP CLEAN

**MAKES
2
SOAPS**

LASER LIGHT BAR

The **Laser Light Bar** promises to protect your skin from the dangers of dirt, germs, and dryness...to infinity and beyond!

YOU'LL NEED:

GLYCERIN SOAP BASE
1 cube (50 grams)

COLORED GLYCERIN SHAVINGS
(use a vegetable peeler)

TIP

Be careful using the vegetable peeler. Make sure to peel away from your body—not towards it!

INSTRUCTIONS

1. Lightly oil the molds and wipe out any excess oil.
2. Using a vegetable peeler, carefully shave 3–5 strips from each colored glycerin.
3. Arrange the strips at the bottom of 2 molds.
4. Ask an adult to lightly spray the shavings with rubbing alcohol.
5. Place one cube (50 grams) of the glycerin base in a microwave-safe cup.
6. Melt the cube for 10 seconds, then stir. Continue heating for 5 seconds at a time until completely melted. Try not to boil or overheat the base.
7. Slowly pour the melted glycerin soap base over the strips.
8. Wait 45 minutes for the soaps to cool.
9. Gently press the back of the molds to release your soap creations!

FAVORITE STORIES

Buzz gravitates to space exploration stories. He especially loves sharing stories of how he defeated Emperor Zurg!
